Subject: Re: Beyond Science and Decisions: Workshop X

Dear Mr. Dunlap

We appreciate the Agency's assistance in this matter and look forward to the comments of both Kris Thayer and Annie Jarabek in the discussion of the four research case studies that form the basis of this workshop. Your thoughts on improvements to this workshop series would also be welcome.

Cheers!

Michael Dourson

Dr. Dourson,

Thank you for bringing this PFOA research case study to the Agency's attention.

I will be unable to attend the meeting, but I have arranged for Drs. Thayer and Jarabek to be in attendance.

Regards,

DDD

Subject: Re: Beyond Science and Decisions: Workshop X

Dear Mr. Dunlap

Thank you for your interest in this workshop. The first research case study is attached, which describes a data-derive extrapolation factor for developmental toxicity with PFOA as an example. Supporting documents for this research case study can be found after the registration page of the upcoming workshop, which itself is found at: https://tera.org/Alliance%20for%20Risk/ARA_Dose-Response.htm.

Three other research case studies will also be a part of this workshop, along with 5 presentations covering various aspects of risk assessment methods as shown on the attached agenda. The additional research case studies will be loaded on this registration page over the next week. Presentations will be made available at the workshop. Please feel free to call with any questions.

Sincerely,

Michael L. Dourson, Ph.D., DABT, FATS, FSRA
Director of Science

Mr. Dourson,

Thank you for awareness on this meeting.

The Agency may have significant interest in the session on PFOA (1pm on Day 1).

Can you please send me more detail on that session? More detail on all the sessions would be helpful as well.

Regards,

DDD

Subject: Beyond Science and Decisions: Workshop X

Dear Mr. Dunlap

We are pleased to announce the next workshop in the series “Beyond Science and Decisions,” which is continuing and expanding upon the discussion set forth by Science and Decisions: Advancement of Risk Assessment ([NAS, 2009](#)). The next workshop is scheduled for February 26 and 27, 2019, at the offices of Texas Commission on Environmental Quality in Austin, Texas. We have an exciting agenda to share with you at: https://tera.org/Alliance%20for%20Risk/TCE2018/Beyond_Science2018_Agenda.pdf. The agenda will include several case studies and multiple talks across a variety of topics.

Registration is free and can be found at: <https://tera.org/Alliance%20for%20Risk/Workshop/WS10Registration.html>. A block of hotel rooms is being reserved at the HILTON GARDEN INN AUSTIN NORTH.

Sincerely,

James Bus, Exponent
Danielle Carlin, NIEHS
